

OAKLAND SCHOOL DISTRICT

HEALTHY AND SAFE SCHOOLS PLAN

Introduction

Each school district, education service district, and public charter school must develop a Healthy and Safe Schools Plan for all buildings owned or leased by the school district or public charter school where students and staff are present on a regular basis.

School districts, education service districts, and public charter schools must submit a preliminary draft of the Healthy and Safe Schools Plan to the Department of Education on or before **October 1, 2016**. School districts, education service districts, and public charter schools must submit the final draft of the Healthy and Safe Schools Plan to the Department of Education on or before **January 1, 2017**. Thereafter, school districts, education service districts, and public charter schools must annually submit an updated Healthy and Safe Schools Plan if new buildings are acquired, constructed, or leased or if the plan is modified by the school district, education service district, or public charter school. Plans should be submitted to the Department of Education at ODE.schoolfacilities@state.or.us.

1. Responsible Person

OAR 581-022-2223(5)(a) states that the Healthy and Safe Schools Plan must include the position within the school district's or public charter school's administration responsible for maintaining and implementing the Healthy and Safe Schools Plan.

The person responsible for maintaining and implementing the Healthy and Safe Schools Plan is:

Name: Nanette Hagen

Position: Superintendent

Contact information: 541-459-4341 ext. 252 E-mail: nanette.hagen@oakland.k12.or.us

A copy of the Healthy and Safe Schools Plan can be found here:

<http://www.oakland.k12.or.us/Portals/Oakland/District/docs/School%20Board/Healthy%20and%20Safe%20Schools%20Plan.pdf>

2. List of Buildings

OAR 581-022-2223(5)(b) states that the Healthy and Safe Schools Plan must include a list of all facilities that are included in the Healthy and Safe Schools Plan.

This plan covers the following buildings:

Building Name	Building Address
Oakland Elementary School	499 NE Spruce St. Oakland, OR 97462
Lincoln Middle School	931 Old Town Loop Oakland, OR 97462
Oakland High School	521 NE Spruce St. Oakland, OR 97462

3. Radon

ORAR 581-022-2223(5)(c) states that the Healthy and Safe Schools Plan must include a plan to test for elevated levels of radon as required under ORS 332.167. Note: radon measurement plans from school districts were due to OHA on September 1, 2016.

Radon measurement resources for schools:

- *Oregon Health Authority's radon measurement protocol, tools, and plan submission information are located here:
<http://public.health.oregon.gov/HealthyEnvironments/HealthyNeighborhoods/RadonGas/Pages/Testing-in-Schools-.aspx>*
- *Oregon School Boards Association (OSBA) has a generic plan (based on OHA's protocol) that may be used to satisfy the requirement if printed out on district letterhead and signed by district staff. It is located here:
http://www.osba.org/News%20Center/Announcements/2016-07-18_RadonTestingPlan.aspx*

The district has developed a radon plan as required by ORS 332.167. Community members can access a copy of the radon plan here:

<http://www.oakland.k12.or.us/Portals/Oakland/District/docs/School%20Board/Radon%20Testing%20Plan.pdf>

Test results will be made public and posted to the district website here: No testing has been completed but when it is the results will be posted here:

<http://www.oakland.k12.or.us/DistrictOffice/SchoolBoard/tabid/73520/Default.aspx>

4. Lead in Drinking water

ORAR 581-022-2223(5)(d) states that the Healthy and Safe Schools Plan must include a plan to test for and reduce exposure to lead in water used for drinking or food preparation. If the district, education service district, or public charter school does conduct lead testing of drinking water, an Oregon Health Authority accredited lab must be used for all testing.

The Oregon Department of Education and the Oregon Health Authority recommend that all school districts and childcare facilities test for lead in school water and take corrective action if lead levels are elevated.

In developing a plan to test for and reduce exposure to lead in water used for drinking or food preparation, the following components are recommended by the Oregon Department of Education and the Oregon Health Authority:

1. **Identify sources of lead:** *Oakland School District has tested all taps used for drinking or for food prep in the summer/fall of 2016. Moving forward, OSD will test all taps used for drinking or food preparation in the buildings to identify any lead problems. These tests will be conducted every five years or more often if deemed necessary. OSD will follow the Environmental Protection Agency's 3 T's Revised Technical Guidance to ensure that samples for lead are collected properly and from the right places. Oakland will use an OHA-accredited drinking water laboratory to analyze samples for lead.*
2. **Stop access:** *Oakland School District will prevent access to water taps that have more than 20 parts per billion (ppb) of lead. This will include shutting off taps, covering water fountains, and providing bottled water to students and staff members.*
3. **Communicate:** *Oakland School District will make results from tests for lead in water available to students, families, and the community as quickly as possible. You can access the Oakland School District's Test Results here:
<http://www.oakland.k12.or.us/Portals/Oakland/District/docs/School%20Board/Radon%20Testing%20Plan.pdf>*
4. **Mitigate and correct:** *Oakland School District will replace the sources of lead in building plumbing. Again, EPA 3T's Guidance should be followed.*

The EPA's 3Ts technical guidance is available here:

https://www.epa.gov/sites/production/files/2015-09/documents/toolkit_leadschools_guide_3ts_leadschools.pdf

5. Lead Paint

OAR 581-022-2223(5)(e) states that the Healthy and Safe Schools Plan must include a plan to reduce exposure to lead paint that includes the following compliance with the United States Environmental Protection Agency's Renovation, Repair and Painting Program Rule.

The Renovation, Repair and Painting Program Rule requires that individuals and firms conducting renovation, repair and painting projects on pre-1978 homes and "child-occupied facilities" be certified to follow lead-safe work practices. "Child-occupied facilities" is defined in OAR 333-070-0085.

For more information on the Renovation, Repair and Painting Program Rule, you can visit the following website:

<https://public.health.oregon.gov/HealthyEnvironments/HealthyNeighborhoods/LeadPoisoning/ChildCareSchools/Pages/RulesforRenovating.aspx>

In order to comply with the United States Environmental Protection Agency's Renovation, Repair and Painting Program Rule, the Oakland School District maintenance staff are certified by the Oregon Health Authority to perform the necessary work.

6. Integrated Pest Management

OAR 581-022-2223(5)(f) states that the Healthy and Safe Schools Plan must include a plan to implement integrated pest management (IPM) practices as required under ORS 634.700 through 634.750.

The Oregon State University School IPM Program has created two model plans to assist districts. The model plans are attached. However, a school governing body may adopt any integrated pest management plan that complies with the requirements of ORS 634.700 through 634.750.

If a district chooses to use an Oregon State University model plan template, the plan must be modified by the specific school district or public charter school to fit their unique situation.

The district has adopted an integrated pest management plan as required by ORS 634.700 through 634.750. Community members can access a copy of the IPM plan here:

<http://www.oakland.k12.or.us/Portals/Oakland/District/docs/School%20Board/IPM%20plan.pdf>

7. Communication

In accordance with OAR 581-022-2223(5)(g) Oakland School District's Healthy and Safe Schools Plan includes the following:

- *The Oakland School District will make all test results available to the public within five business days of receiving the results;*
- *The Oakland School District will make the results available to the public by posting the results on the school district website at this link, <http://www.oakland.k12.or.us/DistrictOffice/SchoolBoard/tabid/73520/Default.aspx>*
- *Oakland School District will send notice of the results over the email system, and making the results available in hardcopy at the main administration office; and*
- *Oakland School District will provide detailed information explaining the test results.*
